

Writing/Sending Letters/Emails for Environmental Advocacy

- What:
 - Can be a chapter event or can be a constant thing that members partake in
 - Copy and paste pre-written letter templates or write letters from scratch
 - Either mail the letters in person, via postal service, or by email
 - The 4 Letter Templates:
 - #1: Material Waste Management
 - Targeted to: any 'goods' or 'product' company, corporation, or business
 - #2: Food Waste Management
 - Targeted to: any company, corporation, or business related to food (local restaurants, supermarkets, and food producing companies)
 - #3: Adding Climate Change and Environmental Science to the Mandatory School Curriculum
 - Targeted to: school districts, county governments, state/provincial governments, and federal governments
 - #4: Urging More Environmental Laws
 - Targeted to: city governments, county governments, state/provincial governments, and federal governments
- Why:
 - Positive change is needed in the world and by having more and more people tell larger groups, organizations, companies, etc. to improve environmentally, a sustainable future can be possibly achieved
- Where:
 - Send them through email or send them as letters
